Minutes of Meeting of ARWA Annual General Body Meeting (AGM) held on 02/Aug/2026

The following captures the details discussed and resolutions passed in the AGM held on 02/Aug/2026 at Auditorium in Abishek Apartments.

1. The meeting was scheduled for 10:00 am. As quorum (1/10th of 148 flats, i.e. approximately 15 members) was not achieved at the scheduled time, Vice President Mr. Sriram, who chaired the meeting, announced a 30-minute wait with the meeting to commence at 10:30 am if required. Quorum of 15 members or more was achieved by 10:20 am, and the meeting commenced at that time. The list of members who attended the meeting, along with the 4 registered proxies (B2-1D, B2-9BC, B5-6D, B4-7A) as displayed in the AGM slide deck (AGM slide deck), is provided in the attached attendance list.

2. Secretary Mr. Sankaranarayanan presented the Audited Balance Sheet for FY 2025-26 to the AGM. A member raised a query on a new "electrician" expense category appearing in the balance sheet compared to the previous year, seeking clarification on the additional benefit derived from the reported spend of over Rs. 6 lakhs. The Secretary clarified that electricians were already employed in prior years as well, and this was a change in accounting categorization rather than a new addition to employment or expense. Treasurer Mr. Chandrasekaran added that even though the new line item shows a difference of Rs. 6 lakhs, the overall maintenance expenses remain broadly similar to the previous financial year, and this should not be construed as a new/incremental expense. He noted that the audited balance sheet was made available only on 1st August, and he would discuss the categorization change with the auditor and share a response with all members via broadcast message within about a week.

3. Secretary Mr. Sankaranarayanan also presented the auditor's observations for FY 2025-26, covering TDS deduction delays, gaps in labour payment documentation, and ESI applicability. There were no queries from members on this matter.

4. The Audited Balance Sheet for FY 2025-26 was put to vote and **approved unanimously** by the AGM.

5. The Committee's recommendation to continue with the existing auditors, M/s Krishnan Ramaseshan & Associates, was **approved unanimously** by the AGM.

6. Secretary Mr. Sankaranarayanan explained the issue that had arisen earlier regarding the Infrastructure Fund collection, wherein a late payment penalty imposed by the Committee had subsequently been revoked due to the legal requirement of individual email communication not having been satisfied at the time. He informed members that, to address this, the email database

has since been substantially updated, with 147 of 148 members now reachable via email. The AGM notice and the audited balance sheet were also circulated in advance to all members individually by email. Additionally, a mechanism was implemented to acknowledge receipt of maintenance payments to residents within a day of credit (with official receipts to follow separately), which has been effective in reducing "acknowledgement anxiety" among residents — reflected in a visible reduction in members posting on the WhatsApp group seeking confirmation of payment receipt.

7. Vice President Mr. Sriram presented the status of the Infrastructure Refresh Project, covering execution progress, amounts spent, and expected future expenses as detailed in the AGM slides. Mr. Balan (B5-4A) questioned whether the project priorities were correctly focused, citing frequent lift breakdowns. Secretary Mr. Sankaranarayanan explained the AMC arrangement with Kone, the original lift supplier, which includes quarterly maintenance visits with an enhanced safety checklist as well as on-call breakdown support. He clarified that lift breakdowns have been attributed to power quality issues (voltage spikes and fluctuations), which are outside the association's control. On the specific observation that no lift spares were replaced by Kone in FY 2025-26 compared to FY 2024-25, the Secretary explained that the Emergency Rescue Device (ERD — comprising a UPS and battery for lift safety during power outages) was replaced in FY 2024-25 and has a lifespan of approximately two years, meaning the next replacement is expected in FY 2026-27. He also noted that Kone carries out preventive replacement of components such as door sensors on an as-needed basis, in addition to breakdown repairs. The Committee confirmed its satisfaction with the quality of maintenance being provided by Kone.

8. Vice President Mr. Sriram explained the change in approach for the EV Charging Station project, noting that the earlier leasing arrangement for the charger unit was no longer available, while market prices for charger units had come down, making outright purchase a viable option. In response to a query on capacity, he confirmed that the association would go in for a basic unit supporting one car and two two-wheelers, to be installed in a parking slot in the visitor parking area on the exit ramp. Mr. Sriram also clarified that the running cost of the charger, primarily the unit (energy) charges for actual usage, would be borne by the users availing the facility, and not by the association. Secretary Mr. Sankaranarayanan reminded members of an earlier poll indicating substantial interest among owners in purchasing EVs if charging infrastructure were made available in the complex. In response to a member query on managing demand exceeding the capacity of a single unit, Mr. Sriram clarified that the association would start with one unit and evaluate the need for additional units based on actual demand. The updated project cost of **Rs. 2,00,000/- (approximate, as an upper limit) was approved unanimously** by the AGM.

9. Vice President Mr. Sriram presented an overview of other infrastructure items in the pipeline, noting that the Committee would prioritize execution based on urgency, available manpower, and resources. The water filtration plant was highlighted as the current top priority given ongoing water quality concerns; the Secretary noted that the ongoing UPVC bore water pipe replacement is expected to mitigate part of this issue, following which the persistence of the water quality concern will be reassessed before a decision is taken on the filtration plant, subject to resolution of space and location constraints. Structural stability of pillars and correction of column corrosion issues was also flagged as a potentially higher-priority item that could take precedence over other planned works if found to be critical.

10. Secretary Mr. Sankaranarayanan presented the case for transitioning to a professional security agency, citing ongoing issues with the current arrangement. Vice President Mr. Sriram explained that professional agencies typically arrange local/nearby accommodation for their personnel, improving availability and reducing manpower churn, though at a higher cost — further impacted by the applicable 18% GST. The Secretary noted that compensation for existing in-house security staff would also need to be revised to remain in line with the new external agency rates. He explained that this change results in security's share of overall expenses rising from approximately 18% to approximately 24%, and walked members through the detailed calculation behind the proposed maintenance charge increase to **Rs. 4.25/- per sq.ft per month**, including comparative scenarios at other rate points (e.g. Rs. 3.75, Rs. 4.00), which gave members a clear understanding of how the proposed rate was arrived at. The Secretary also noted that a portion of routine cost escalation is structural rather than discretionary: Tamil Nadu's electricity (EB) tariff is revised automatically every 1st July under the Tamil Nadu Electricity Regulatory Commission's (TNERC) CPI-linked multi-year tariff framework, capped at a maximum of 6% or the applicable Consumer Price Index rate, whichever is lower — a mechanism currently in force through FY 2026-27, with draft TNERC regulations proposing its extension into future control periods. The Secretary clarified that any lower rate would result in a shortfall between expected expenses and collections. The proposed maintenance charge revision to **Rs. 4.25/- per sq.ft per month, effective October 2026, was approved unanimously** by the AGM. The Secretary further clarified that the full impact of this revision will only be reflected from FY 2027-28 onward, since the increase is effective for only two quarters within FY 2026-27, resulting in a small residual shortfall between expected expenses and collections for the current financial year.

11. *Note for record: Four penthouse flats (B2-9AD, B2-9BC, B3-9AB, B3-9CD) will cross the GST-exemption threshold of Rs. 7,500 per month at the revised maintenance rate. Per CBIC Circular No. 109/28/2019-GST dated 22-Jul-2019 (official circular), GST @18% applies on the entire monthly maintenance amount for such flats once the threshold is crossed, not merely on the excess over Rs.*

7,500. It is separately noted that the Madras High Court, in Greenwood Owners Association v. Union of India (2021), held that GST should apply only to the amount in excess of Rs. 7,500 and stayed the Circular's interpretation to that extent; however, as the Circular has not been formally withdrawn, the Committee will continue to apply GST on the full amount for the affected flats as the prevailing compliance position, pending further clarity.

12. At around 11:30 am, the AGM was paused at the request of Vice President Mr. Sriram to allow representatives from the Greater Chennai Corporation zonal office, along with a representative from Urbaser Sumeet, to address the members. The visiting officials explained the requirement for source segregation of waste within the complex as a "bulk waste generator," including bin sizing requirements, arrangements for separate pickup of wet and dry waste by Urbaser, and penalties that may be imposed by the Corporation for non-compliance. Following their departure, it was decided that the Committee would organize a separate meeting with all residents to communicate this requirement in detail and finalize an implementation timeline.

13. Secretary Mr. Sankaranarayanan gave a brief update on the sewerage line appeal, noting no change in status. No discussion followed.

14. The AGM then proceeded to fill the open positions on the Management Committee for the 2026-2029 term. There were no separate proposals for new members prior to this; the meeting proceeded directly to volunteering for open positions following the departure of the Corporation/Urbaser representatives. Mr. Chandrasekaran agreed to continue serving on the Committee for one more term, having earlier indicated he would step down for personal reasons. All open positions were filled through a combination of elected and volunteering members. The newly constituted Management Committee (term August 2026 to August 2029) comprises:

S.No	Name	Block	Flat
1	Mr. Sriram	5	9A
2	Mr. K Chandrasekaran	4	10A
3	Mr. Sankaranarayanan B.	5	3C
4	Ms. Uma Maheswari	2	4A
5	Mr. L R Murali	2	7A
6	Ms. Anantha Lakshmi	4	5C
7	Mr. Ramasubramanian K	2	3A
8	Mr. S Ganesan	3	3B
9	Mr. Chandramouli	4	4D

15. Office bearer designations (President, Vice President, Secretary, Treasurer, etc.) for the new Management Committee will be announced following the new Committee's first meeting, and communicated separately to members.
16. No other items were raised for discussion under Any Other Business.
17. With the completion of the Management Committee formation, the AGM was formally adjourned. Several members came forward to express their satisfaction with the Committee's work and the quality and detail of the presentation shared during the meeting, and appreciated the Committee members for volunteering their time for the common cause.

Annexures:

1. List of Attendees — Annexure A (attached below)

2. AGM slide deck — ARWA-AGM-Slides-2026-08-02.pdf

Sankaranarayanan B.

Secretary, ARWA Management Committee

Annexure A — List of Attendees, AGM held on 02/Aug/2026

S.No	Name	Block	Flat
1	Sankaranarayanan B.	5	3C
2	Sriram	5	9A
3	V. Venugopalan	4	9C
4	G. Lakshmi Narayanan	2	4A
5	K. Ramasubramanian	2	3A
6	V. Kalyani	2	4B
7	Kasthuri Saravanan	2	9BC
8	S. Murali	2	2D
9	Selvyn	5	4C
10	Latha Muralidhar	4	5C
11	Shalu Rollison	5	10A
12	Ramanathan	4	7D
13	A.V. Nath	4	7A
14	Sarika	4	8B
15	Kesavan S	2	1D
16	S. Ganesan	3	3B
17	L.R. Murali	2	7A
18	R. Balasubramanian	5	4B
19	K.V. Balan	5	4A
20	S. Chandramouli	4	4D
21	K. Chandrasekaran	4	10A
22	Revati Rajagopal	4	5B
23	S. Ramalingam	4	2C
24	Saraswathi A.	3	8D
